

Acne is a chronic condition that affects people of all ages and skin types. While your doctor can work with you to determine a daily treatment plan,

## SilkPeel™ Dermalinfusion™

promotes your skin's improvement by clarifying oily, blemish or acne prone skin. This non-surgical system will give you skin that looks and feels fresh while soothing redness and irritation. Your skin will look clear and feel soft. Put acne behind you and take your next step towards healthy, beautiful skin.

before

after

SilkPeel™ is the only procedure that exfoliates and infuses skin-specific dermaceuticals, leaving you with fresher-feeling, better-looking skin. Your treatment provider will select a specific SilkPeel™ solution to target your acne and breakouts.

SilkPeel's "wet abrasion" treatment exfoliates and withdraws toxins while infusing your skin with vitamins, nutrients and anti-oxidants. Your skin is smoothed and refined with a visible, radiant glow.

Here is what patients are saying about

## SilkPeel™ Dermalinfusion™

"My dermatologist recommended SilkPeel™ treatments for my constant breakouts, and now 5 treatments later my skin has really changed. No more blemishes and my skin feels soft and smooth."

Katie M.

"As an acne sufferer, my skin was constantly red and irritated. Each SilkPeel™ treatment calmed and soothed my skin and the benefits lasted for days!"

Tim D.

## Frequently Asked Questions

Q. What exactly is SilkPeel™?

A. SilkPeel's "wet abrasion" infuses the skin with a topical dermaceutical while simultaneously exfoliating, targeting the unique needs of your skin such as blemishes, sensitivity, redness, and irritation to give you the revitalization you want.

Q. Is it safe?

A. Yes, and comfortable. You are no longer exposed to the discomfort of particulate microdermabrasion. Following each procedure the equipment is thoroughly disinfected.

Q. How long does the procedure take?

A. Also referred to as the lunch time facial, SilkPeel™ procedures typically last about 20 minutes. Plus, because the SilkPeel™ delivers a dermaceutical specific to your needs, your post-treatment protocol is quick and easy.

Q. Will I miss work or have to alter my social schedule?

A. No. SilkPeel™ is easily performed within an hour so you can promptly return to your normal activities.

Q. Will there be any pain or discomfort?

A. No. The exfoliation may cause you a mild tightening of the skin. Combined with the cool effect of the topicals, your skin will feel healthy and smooth.

Q. Do you have a topical for my skin condition?

A. Yes. SilkPeel™ addresses the most common skin conditions with topicals for dehydrated skin, dull looking skin, dark spots, skin blemishes, acne, and acne scarring.

Q. What will my skin look like after a treatment?

A. Your skin will have a radiant glow, leaving you looking healthy and renewed.

Q. What do I need to do after a treatment?

A. Your physician or aesthetician will customize a post-care regimen, which will include sunscreen and may also include moisturizers, cleansers and serums to enhance and maintain results.

Q. How long does it take to see results?

A. You will see visible results after the first treatment. Although most patients achieve optimal results after 4 to 6 treatments.
